

MineIntel Acceptance Test

Organization: Aurora Mining Division
Reporting Period: July 2026
Unique verification identifier: MINEINTEL_ACCEPTANCE_73921

Operational Mining Performance Summary

The Aurora Mining Division recorded continuous extraction operations during the July 2026 audit window. Clean coal output achieved 12,345 tonnes against a raw coal throughput of 15,000 tonnes.

Metric Description	Operational Value	Unit of Measure
Total Raw Coal Processed	15000	Tonnes
Total Clean Coal Production	12345	Tonnes
Gross Commercial Revenue	6789000	INR
Direct Operating Expenditure	4250000	INR
Net Operating Surplus	2539000	INR

Audit Directives & Arithmetic Formulas:

- 1. Surplus Check: [MATH_CHECK: Net Operating Surplus | formula: $6789000 - 4250000 = 2539000$]
- 2. Yield Efficiency: [MATH_CHECK: Clean Coal Yield Percentage | formula: $(12345 / 15000) * 100 = 82.3$]

Verification Signature: Audit confirmed by Sovereign Enclave Inspector under identifier MINEINTEL_ACCEPTANCE_73921.
